**Native Plant Seed Mixes** - Choose from three different mixes of seeds that will enhance your landscape for less money. **Packets come in 2 sizes - cover either 100 square feet or 1,500 square feet.**

1). Savanna / Woodland Mix: Looking for an option for that shady spot? This mix of grasses and flowers is specially designed for those partially shaded and woodland edge sites.

2). Bee and Butterfly Pollinator Mix: Grasses and flowers in this mix provide valuable food and cover for pollinators throughout the growing season, as well as adding appealing color.

3). Lakeshore Mix: An attractive combination of moisture tolerant species that thrive near the water's edge.

Note: Complete lists of species comprising the seed mixes are available upon request.

**Pollinator Kit - \$ 50.00** This kit includes 36 native plant plugs – six of each species listed.

This kit is designed to feed pollinator species like butterflies and bees, while providing colorful flowers all summer! Kit will cover 60 sq ft.
